

# Bedtime Story For the Little Ones

UNCLE WIGGILY AND NURSE JANE'S DRESS.

BY HOWARD R. GARIN.

"Are you going to be very busy today, Uncle Wiggily?" asked Nurse Jane Wiggily. "Wiggily, the muskrat lady housekeeper of Mr. Tongers, whose hollow stump bungalow she kept swept and dusted for him."

"Very busy? Oh, no, not specially so," he answered, casual-like and unpretentious. "I'm only going around in the woods to look for adventures. Is there anything you would like me to do?"

"Why, yes, there is," replied Miss Fussy Wiggily. "If you have time I wish you'd stop at the three-and-four-cent store and bring back my new dress."

"Oh, do it!" cried Uncle Wiggily, jolly like and impetuous.

So off the muskrat lady housekeeper started, hopping through the woods. He looked here, there and everywhere for an adventure, but none could he seem to find, and at last he said:

"Well, I may as well go on to the three-and-four-cent store and get Nurse Jane's new dress. She wants to wear it to the moving pictures to-night, I guess."

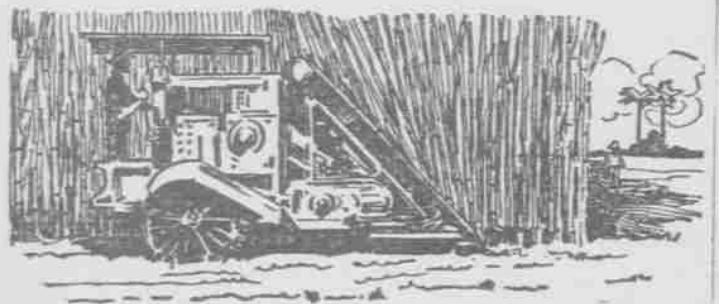

Turning up another path in the woods, the muskrat lady started for the store, but half way there he saw Tootie and Noodle Flat-Fall, the two beaver boys, gnawing down a nice big pine tree.

"Oh, beaver boys! Why are you doing that? Why do you gnaw the tree?" asked the muskrat lady.

"Oh, just for fun!" answered Tootie.

"To sharpen our teeth," answered Noodle.

"Well, do it on some old, fallen

## A NEW INVENTION

Wonderful discoveries in science and medicine, as well as mechanics, are made every day in the United States. A reaper for cutting sugar cane is one of the recent successes.

Equally as interesting is it to know that Dr. Pierce, of the Surgical Institute, Buffalo, N. Y., has discovered a new kidney and backache remedy which is having splendid success in curing many bladder and kidney troubles. Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its over-abundance in the system it causes backache, pain here and there, rheumatism, gout, gravel, neuralgia

and sciatica. It was Dr. Pierce who discovered a new agent, called Anuric (double strength), which will throw out and completely eradicate this uric acid from the system. Anuric has proved to be many times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body, for you can obtain Anuric at your nearest drug store for 60c large package.

If backache, scalding urine or frequent urination bother or distress you, or you suspect kidney or bladder trouble, Anuric will surely relieve or cure you.

Send 10c to Dr. Pierce for trial package Anuric tablets.

## "Mérode"

(Hand-finished, Fine Gauge Ribbed)

## UNDERWEAR WEEK

November 12th to 17th

During this week, Monday, November 12th to Saturday, November 17th, "Mérode" (Hand-finished) Fine Gauge Ribbed Underwear will be displayed in the best shops throughout the country.

Avoid those unpleasant chills and colds by preparing for the drop in temperature. You can be warm and comfortable and still retain clean-cut, tailored lines if you wear "Mérode" Underwear.

Each garment is cut by hand and the details of finishing are carefully executed; the fit is perfect and permanent because "Mérode" Underwear is also pre-shrunk and finished

with Flatlock seams, giving only one thickness of fabric, and made in Vests, Drawers, Tights and Union Suits.

Important, too, is the adaptation of the "Mérode" Underwear to the fashions of today. There are plenty of styles covering the entire body, but many which permit of the transparent sleeve and neck styles of dress.

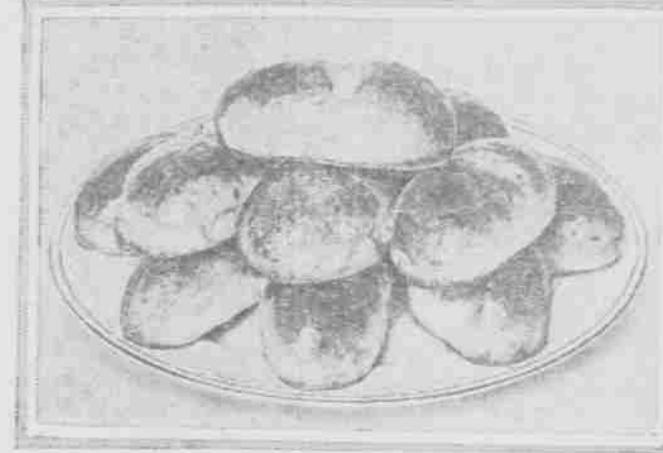

Whether you wish to purchase now or not, you are sure to be interested in the display. The dealer in your town who carries "Mérode" Underwear will be glad to extend to you every courtesy of Underwear Week.

Should you need aid in finding your exact requirements, write to us.

## Milk Rolls.

SCALD half a pint of sweet milk without allowing it to boil, let it cool; when cold, stir into it one cup of flour and one tablespoonful of sugar mixed with two tablespoonfuls of yeast. Put three cups of flour and a pinch of salt into a bowl, make a well in the center, and pour in the above mixture. Cover, and allow it to stand in a moderately warm place

over night. The next morning, work in two tablespoonfuls of warm butter, and allow it to stand for four to six hours in a warm place. Form the dough into oblong rolls place them on a baking tin far enough apart so they will not run together, and allow them to stand two or three hours longer, then bake in a quick oven, glaze the tops with a white of an egg. (Tomorrow—twentieth century cake.)

## News Notes from Movieland

By DAISY DEAN.

THE American Exhibitors' association is preparing to fight the war tax.

Plans for this end already have been formulated and arrangements now are being made to induce every exhibitor in the country to assist by preparing and presenting data showing actual results of the 10 percent tax on all

admissions, which went into effect November 1.

A general order has been sent to exhibitors throughout the country asking that they prepare intelligent

statements as to business done during the months of October and November. These statements are desired to include receipts, expenditures and profits for each period.

Heads of the association plan to gather this data not later than December 5 and to present it to congress in an effort to show that the plan of the government to increase its war revenue is being defeated in the actual working.

There is no question but what the tax is an injustice to the smaller neighborhood houses. While the few added cents, paid by see-patron, mean a small item to many followers of the photoplay, there are certain conditions wherein it may cause many of the smaller houses to shut up shop and cease to do business.

The results of the exhibitors' campaign will be watched with interest throughout the United States.

"Who leads the National Army" is the picture distributed by Triangle purporting to enlighten those at home regarding the training and general welfare of the soldiers comprising the

National Army. The Military Training camps association has used this one reel motion picture and it is to be presented at all the motion picture theaters in the United States.

Eugene O'Connell, well remembered as a legitimate actor, and long associated with the Famous Players, has joined Douglas Fairbanks and will be seen in "Reaching for the Moon," the next Fairbanks release.

"His Mother's Boy" is announced as the next release in which Charles Ray is to be featured. It is from the story of Highway Callum and was directed by Victor L. Schertzinger.

Pauline Frederick, recovering from her attack of pneumonia, will start work on her latest release, a brief story. She has just completed "Mrs. Jones's Defence."

Neil Shipman is back with Vitaphone, making her newest release, the name of which will be announced shortly. She is remembered for her work in "Dead Country" and "Woman's Defence."

### For Older Folks.

ELDERLY men and women—and I leave it to you what age you choose to consider elderly—need somewhat different foods from younger folks. An older woman lives a more sedentary life, her work and exercise is lighter and less frequent than that of the younger people around her, as a rule. Consequently, an older woman needs foods with laxative properties, oranges, spinach and all kinds of green vegetables, which are good for the liver, salads, with thick mayonnaise. And plenty of fruit, especially apples, which are quite important, for in them you get fresh vegetables and fresh fruit, and often nuts, which

are far more nourishing than meat. Olive oil is the mayonnaise is fattening, nourishing, a tonic for the system, and has a tendency to regulate the bowels. Rich broths with an egg beaten in, are also good for elderly folks.

About a year ago a woman of 60 wrote me and said she was considering taking a course in gymnastics, and wanted to know whether I thought it would hurt her. I answered that it would do her a lot of good, and wanted her to write me after a few months, and tell me what she thought of it. She did, almost a year later. She wrote: "I feel 15 years younger, and I look 15 years younger at least. Where my joints were stiff, they are now supple. I never have constipation and my dreaded tendency to rheumatism seems

to have left. My physician claims that the exercises, having stimulated the eliminative functions of the body, will probably cure me of rheumatism, since that comes from faulty elimination."

Of course my exercises are not as vigorous as those given the younger members of the classes.

Questions and Answers.

Mary D.—Your postal was so appreciated in the mail, that I could not make out the name you wanted to know—can you write me again?

Edith—If the freckles are stubborn, get a doctor to apply a strong solution. I can recommend cucumber juice, lemon juice, and various other mild bleaches, but for very stubborn freckles it is best to get a stronger treatment. You are quite a bit underweight, you should weigh 20 pounds more, according to health statistics.

Your best colors are blues of every shade, except very pale blue, which will not bring out your eyes. Grays of a decided shade will become you, rich shades, especially when combined with blue, white relieved by color, greens with a bluish tint, violet and lavender, and browns.

Anxious girl—With brown hair and brown eyes, you will find that rich tints are most becoming—browns of course, the most becoming color usually being one to match the eyes. Thin gold and yellows will prove becoming, and almost every pastel tint.
